**Summary of Legislation:** This bill permits a school corporation to appeal to the State Board of Tax Commissioners for an excessive general fund property tax levy to fund increased employee health insurance costs.

**Effective Date:** July 1, 2001.

**Explanation of State Expenditures:** Local schools paid \$532.5 M in group insurance, health, life, and accident insurance, for FY 2000. Health insurance is the major portion of group insurance. Assuming that health insurance is about 80% of the group insurance cost, the health insurance costs would have been about \$426 M for FY 2000. The bill allows an appeal if the health insurance cost increase is a result of:

1. Increased costs due to an increase in enrollment.
2. Increased costs due to an increase in premiums that is not due to a change in the program design.

Health insurance costs have been growing by about 10-15% so the dollar amount of the appeals could be \$40 to \$60 M per year.

The state's expense for property tax replacement credits (PTRC) could be increased under this bill. PTRC is paid from the Property Tax Replacement Fund which is annually supplemented by the state General Fund. Any additional PTRC expenditures would ultimately come from the General Fund.

The impact on the Property Tax Replacement Fund could be \$8 - 12 M per year.

The actual fiscal impact depends on the number and dollar amount of appeals and the amount of those appeals that are granted by the State Board of Tax Commissioners.
